

For Practice

Directions

1. Use a for loop to print the numbers from 0 to 25 across the screen with a space between each one.
2. Use a for loop to print the numbers from 10 to 1 across the screen with a space between each one.
3. Use a for loop to print the odd numbers from 1 to 40 across the screen with a space between each one.
4. Use a for loop to print the even numbers from 1 to 40 across the screen with a space between each one.
5. Use a for loop to print the numbers from 0 to 200 in increments of 10 across the screen with a space between each one.
6. Use a for loop to print the numbers from -10 to -20 across the screen with a space between each one.
7. Use a for loop to print the string literal "computer" 10 times down the screen.
8. Use a for loop to print the string literal "This will be printed x times to the screen"; where you get the number of prints (x) from the user by asking "how many times would you like to see the same sentence?".
